

REMARKS

In the Notice of Allowance several Examiner's Amendments were presented. Upon review it was determined that some of the Examiner's Amendments presented changes that introduced antecedent issues.

The amendments presented in this Amendment under 37 CFR 1.312 are intended to repeat and modify, where necessary, the Examiner's Amendments.

The Examiner's Amendments with regard to **Claims 9 and 22** are repeated and presented herein without further modification.

The Examiner's Amendments to **Claims 19 and 32** have been repeated and slightly modified to more properly recite "first and second airflows" rather than "first and second vents".

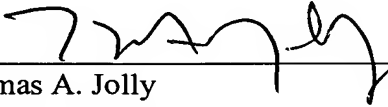

In **Claim 28**, the Examiner's Amendment has been repeated and slightly modified to more properly recite "first and second vent holes" rather than "first and second vents".

With these minor modifications based on the Examiner's Amendments, it is believed that the claims remain in condition for allowance.

Respectfully submitted,
